CAREER SUMMARY

Fullstack Developer with hands-on experience in Laravel, React.js, and MySQL. Proven ability to deliver scalable web applications, automate workflows, and enhance system performance. Adept in Agile environments, team collaboration, and delivering user-centered solutions.

KEY ACHIEVEMENTS

- Increased landing-page engagement by ~25% after redesigning Assalaam Hypermarket's homepage. (HTML, CSS, Tailwind CSS)
- Reduced manual reporting time by ~40% by delivering a transaction-history admin dashboard. (Laravel, MySQL)
- Enabled 100+ new members to register online and access shopping history and bonus points. (Laravel, MySQL)
- Improved frontend performance with component optimizations, cutting load time by ~15%.

TECHNICAL SKILLS

- Languages: PHP, JavaScript
- Frameworks: Laravel, React.js, Next.js (Basic), Tailwind CSS.
- Databases: MySQL, PostgreSQL
- Testing & Tools: PHPUnit, Postman.
- Version Control & Deployment: Git, Github Actions, Vercel
- Methodologies: RESTful APIs, Agile Scrum

PROFESSIONAL EXPERIENCE

➤ Fullstack Web Developer (Internship)

PT. Tiga Serangkai Pustaka Mandiri Group – Assalaam Hypermarket | Sept 2024 – Jan 2025

- Redesigned landing page to modern UI (Tailwind CSS), improving page engagement by ~25%.
- Built admin dashboard (Laravel, MySQL) to track transaction history, reducing manual reporting time by ~40%.
- Developed an online member registration and dashboard system, enabling 100+ new users to access shopping history and loyalty points.
- Collaborated in a 2-person Agile team to deliver features on schedule and ensure code quality.

➤ **Frontend Web Developer (Internship)**

Core Initiative Studio | Feb 2024 – Mar 2024

- Designed and implemented responsive web interfaces (React.js, Tailwind CSS).
- Optimized components and static assets, reducing load time by ~15%.
- Worked closely with designers to ensure consistent UI/UX across platforms.

➤ **Fullstack Web Developer (Internship)**

PT Rakamin Kolektif Madani, Jakarta Selatan | Aug 2023 – Feb 2024

- Implemented full-stack features and maintained stable deployments.
- Strengthened backend data handling and integrity across services.
- Automated validation and routine jobs (React.js, PostgreSQL), reducing data-handling errors by ~30%.
- Participated in sprint reviews and code reviews, ensuring compliance with Agile practices.

KEY PROJECTS

- Teachme Course Tutoring Website – Automated reporting system (Laravel, MySQL, React.js) that reduced manual work by ~50%.
- Majorney AI Recommendation System (Thesis) – Built a content-based recommendation system using binary vectors and cosine similarity (Machine Learning).
- Inventory Management Stock System – Developed inventory features (React.js, PostgreSQL, Postman) to minimize stock discrepancies and improve reporting.
- Assalaam Hypermarket Website – Designed and launched online member registration and dashboard (Laravel, MySQL) with integrated loyalty program.

EDUCATION

- **Tiga Serangkai University – B.Sc. Informatics Engineering (2021 – 2025) | GPA: 3.64/4.00**
 - Final Project: Implementation of Content-Based Filtering in Study Program Recommendation System using Binary Vector Representation and Cosine Similarity.
 - Relevant Coursework: Database Systems, Software Engineering, Machine Learning, Data Structures & Algorithms.
- **SMA Negeri 7 Surakarta (2015 – 2018)**

CERTIFICATIONS

- [Internship Program](#) – PT Rakamin Kolektif Madani
- [Machine Learning Certificate](#) – Rapid Miner Altair Company
- [Desktop Application Training Professional Level](#) – Ebiz Education Enterprise
- [SQL Fundamentals](#) – SoloLearn (2022)
